WHISKEY DICK LUBE

It used to be that having “whiskey dick” meant you were ending the night unsatisfied, but now it means the exact opposite. This bourbon-flavored lube/massage oil is the best thing to happen to sex in years. Unlike the real thing, this non-alcoholic boozy delight won’t leave you limp. Simply add a few squirts and you and your lady will be experiencing bedded bliss in no time!

KNUCKLE UP

Although they’re made of plastic, we’ve never seen a sexier set of brass knuckles. Knuckle Up is one of the most original sexcessories on the market. Simply attach any compatible dildo to the plastic plug, put your fingers through the toy’s knuckles, and get to it! It works with all Vac-U-Lock dildos, giving you a unique way to fuck yourself—or your partner.

FINGER FRIENDS

These 10-function bullet vibes are the perfect accessories for solo pleasure. Each Finger Friend consists of a powerful bullet and a stylish silicone sleeve that create a fantastic fuck buddy. A loop on the back of each sleeve makes it the perfect one-handed toy, leaving your free hand free to pleasure other parts. We’re sure this will quickly become one of your best friends!

S&M BLINDFOLDS

Whether you're a long-time fan of sensation play or have just discovered it thanks to the mainstream success of kinky erotica, you'll love the blindfolds from Sex & Mischief. You can get traditional black satin or go for the more colorful red, pink or leopard print. Whichever you choose, once you put it on we guarantee you'll be in for a night of sensual surprises!

SABRINA MAREE PET PUSSY

We have a thing for redheads, and Sabrina Maree is one of the fieriest. If this gorgeous ginger is your type, we suggest you pick up her Vibrating Pet Pussy & Ass. We know this pussy will bring you pleasure because it's molded straight from Sabrina's privates, and with two tight entrances, you can fuck her any which way you choose. Don't miss your chance to ride this red-haired hottie!

CUM CLOTH

We've always been fans of baby wipes for post-coitus cleanup, but if you're looking for something more formal—and more environmentally friendly—you can't go wrong with the Cum Cloth. The soft microfiber towel is gentle enough to use when wiping off more intimate areas, but strong enough to get the job done. Anyone who likes to be clean when they're getting down and dirty will love this product.
