

**FETISH FANTASY
YOGA SEX SWING**

We know that missionary and doggie-style sex can get old, but finding comfortable new positions has never been easy—until now. The Yoga Sex Swing makes even the most acrobatic positions possible. A series of soft, wide straps let you stretch out in midair, allowing you to move in ways you never thought you could. You can suspend your partner or yourself singly for new variations on standing or oral sex, or you can both hop on for some low-impact, big-climax sex. The choice is yours.

**MASQUE
SEXUAL FLAVORS**

Forget messy flavored lubes, flavor strips are the way to go when it comes to sweetening up your oral sex play. Masque gel strips melt on your tongue, filling your mouth with the delicious taste of strawberry, chocolate, watermelon or mango. Once the flavor hits, you've got 15 minutes to devour your date before the standard tang of sex returns. But we doubt one strip will be enough. These oral aids taste so good, you'll want to lick your lover again and again—and there's nothing wrong with that!

**THE GRUESOME DEATH
OF TOMMY PISTOL**

Normally, the only movies we care about are of the X-rated variety, but there's a special place in our hearts for campy horror flicks—especially when they star some of our favorite crushes. This one stars porn stud Tommy Pistol (a female fan favorite) as a blundering idiot who, well . . . the title kind of gives it away. It also features porn starlet Kimberly Kane, a hardcore hottie we've long admired, and the wildly sexy Mia Tyler, rocker Steven Tyler's big, busty and incredibly beautiful daughter. We can't guarantee it will get you off, but it will definitely give you a good laugh!

EGO

Rechargeable vibrating cockrings are the wave of the future, and the latest on the scene is Jopen's Ego. The silicone ring charges via a USB power cord and is ready to go in less than three hours. Once it's charged, this soft, stretchy toy buzzes quietly but powerfully, a button on top lets you increase the speed as you play, and the bullet's position ensures that your lady has pleasant but not overpowering sensations (so you still get to be the star of the show). If you need a new way to wow your woman, the Ego will do the trick.

RASCAL COCK TIES

Cockrings aren't always the easiest to get on when you're looking to get off, but Rascal has found a solution: the adjustable Cock Tie. These resizable rubber ties are designed to fit any erection, no matter how big. You can wrap the ring around your shaft alone or increase your pleasure by tying it behind your balls, then simply slide the beads along the tie to tighten it. Once you're all wrapped up, the Cock Ties will help you stay harder longer, so you can experience even more ecstasy. Finally, a tie you'll enjoy wearing!
