MCKENZEE MILES PET PUSSY & ASS

August 2010 Penthouse Pet Mckenzee Miles may have left the porn game, but you can still get a piece of this blonde bombshell. Molded directly from her delectable cunt, Mckenzee's Pet Pussy feels so much like the real deal that you'll feel like you're actually fucking this fantasy girl. You can cream in her cunt or her ass, and you can have her whenever you'd like, so we're sure this mock Mckenzee will more than please you.

SEX CELLS

Most of the toys in our toy chest require a little help—in the form of battery power—to get us going. And while there's nothing wrong with the standard drug-store batteries, we think your playthings deserve a sexier power supply. Thus, we highly recommend Sex Cells. These batteries come in all the standard sizes, but instead of the typical brand name along the small cell, each battery is wrapped in an erotic photo, giving you a little something extra to ogle before you bring yourself to orgasm. They'll get your toys—and you—going in no time!

JUNK IN THA TRUNK

If you like a woman with a little extra cushion, this is the fantasy fuck toy for you! The vibrating Junk In Tha Trunk stroker has the most voluptuous rubber booty we've seen, and a thick pussy to match. Two bubbly black ass cheeks frame a tight asshole and a fat cunt, both of which are yours for the taking. There's plenty of faux flesh for you to grab and slap as you pound her pussy or assault her ass, and when you're done, you can fill her with your hefty load without fear. Like we said, this is the perfect fantasy fuck.

X-RATED FORTUNE COOKIES

Forget simply adding "in bed" to the end of your traditional fortunes—these X-Rated Fortune Cookies are much more fun! Each cookie is packed with a silly, sexy or smartass fortune sure to put you and your fellow diners in the mood. Our favorite fortune? "Confucius say: Man who lay woman on ground have piece on earth." There are sure to be a few that tickle your fancy, too, so crack one open and see what sort of erotic fun the fates have in store for you!

I LIKE IT DOGGIE STYLE

Sometimes doing it doggie-style takes a bit more effort, but this handy strap from Sportsheets will make it even easier to enjoy. The thickly padded strap is designed to hold up your lover while you bang her (or him) from behind. Hoisting up your partner's ass allows you to try out new angles when you fuck, and it keeps your other half's behind exactly where you want it so you never slip out. Whether you use it to do it doggie-style or to bang your lover's backdoor, this strap will make rear-entry sex that much more pleasurable!
