CHEEKY-BOY

This is one vibrating butt toy we think every fella needs to grab right away. The Cheeky-Boy is a seven-speed wonder, curved to fit perfectly between your cheeks, and the four orbs along the shaft make insertion and removal fun as well. The power button on the toy's base makes it ideal for solo play, but you can also wear it while fucking a partner. Bonus: The toy has a nodule that will tickle your perineum while it's humming away in your behind, meaning you get double the pleasure whether you're using it alone or during intercourse!

MARCIA MINI BULLET

Teeny tiny vibrators are big these days, and we can't get enough of the easy-to-hide playthings. Our pick of the moment is this vibe from Maia. Considering it's size—it's only three and a half inches long from base to tip—you might not expect much, but this sweet little thing has seven modes of vibration, so it packs more of a punch than you'd think. All it takes is one AAA battery to get this toy's motor running—and yours, too!
